### Services

Founded in 1975, The Parenting Center has expanded its services and helped more than 510,000 families throughout Tarrant County and surrounding areas through the following services. **We depend on the support of the local community to help sustain these programs.** 

**Empowering Families**—At the heart of the Empowering Families Project is the belief that one of the best things you can do for your kids is to work on being a strong couple. Through an 8-week series, families practice skills to cooperate better, argue less, and get on the same page about parenting, finance, and more. Families are provided with personalized support from a Family Support Specialist, access to financial coaching, employment services, free meals, and child care each week.

**Clinical Counseling**—The Clinical Counseling Program provides a broad range of counseling/therapy services, including individual therapy for adolescents and adults, marital and couples counseling, family counseling, play therapy, and group therapy. Services are designed to improve individual and family functioning.

Family Life Education—To help parents feel confident and successful in their role, we offer more than 50 relevant classes on a wide range of topics in our parenting classes. We are here at every stage of development, birth to teen, to assist parents in nurturing and guiding their children. Our goal is to deliver quality, research-based instruction on effective, non-violent child-rearing practices, so that parents and caregivers can feel positive about their relationships with their children.

**HEAL Program**—Home Visiting, Education, and Leadership (HEAL) Program is a family-strengthening program that utilizes the SafeCare Curriculum. Skills training includes child behavior management, as well as planned activities training, home safety training, parent training on how to create healthy parent-child interactions, and child health care education.

**Family Transitions**—Through the Family Transitions (Co-Parenting) Program, The Parenting Center provides comprehensive support, education, and guidance designed to help parents keep their children safe and happy throughout their family's transition. Our dynamic services are offered to parents, step-families, grandparents, and children, and include classes, consultation, and mediation.

**Parenting Advice Line (PAL)**—The PAL service is a free, confidential telephone line for concerned parents or caregivers with questions about raising children.
